### Light box profile

This slim light box profile has a width of 50mm / 1.97” and insert possibility of any material up to 5mm/0.20” thickness.

An internal lighting system can be integrated at wish.

### Cover profile

This profile can be slid into the TLLBA, giving more stability and resulting in a different finish.

### Standard L-profile

This profile is used to secure the 90° angle, and to give more stability to the TLLBA profile.

### Screws

TLSCR2: screw to block the L-piece in the TLLBA light box profile
The TLOPV cover profile will be slid in the TLLBA light box profile and they will be cutted in a 45° angle to ensure perfect fitting of the 90° angle of the sign. A standard L-profile, fixed on the TLLBA will secure the 90° angle. An internal lighting system can be integrated at wish. Ideal for personnel signs, directional signs, lighting signs and more...
